HKUST Business School

HKUST is a dynamic and forward-thinking university with a truly global outlook. Founded in 1991, we have rapidly established ourselves as a top global institution and built a respectable reputation in the region by aligning our world-class educational resources with the growth momentum of Asia. The University has developed a unique East-West educational ethos centered on the core values of excellence, diversity, open-minded curiosity, and an upbeat “can do” spirit. As the leading global business school in the region, our vision and ambitions distinguish us from the rest.

We are the Leading Global Business School in Asia

As the regional leader in global business education, our MBA and EMBA programs have consistently been ranked among the world's best. The Financial Times Global MBA Ranking named us:

Top 20

MBA Program in the World
for 13 consecutive years

No. 1

MBA Program in Asia
6 times in 10 years

Among the Global Top 20 MBA Programs in 2020, we ranked:

No. 4

Career Progress

No. 5

Value for Money

No. 5

International Course Experience

No. 5

International Mobility

We also top the charts as:

1st

Business School in Asia to receive dual accreditation from AACSB (US) and EQUIS (Europe)

1st

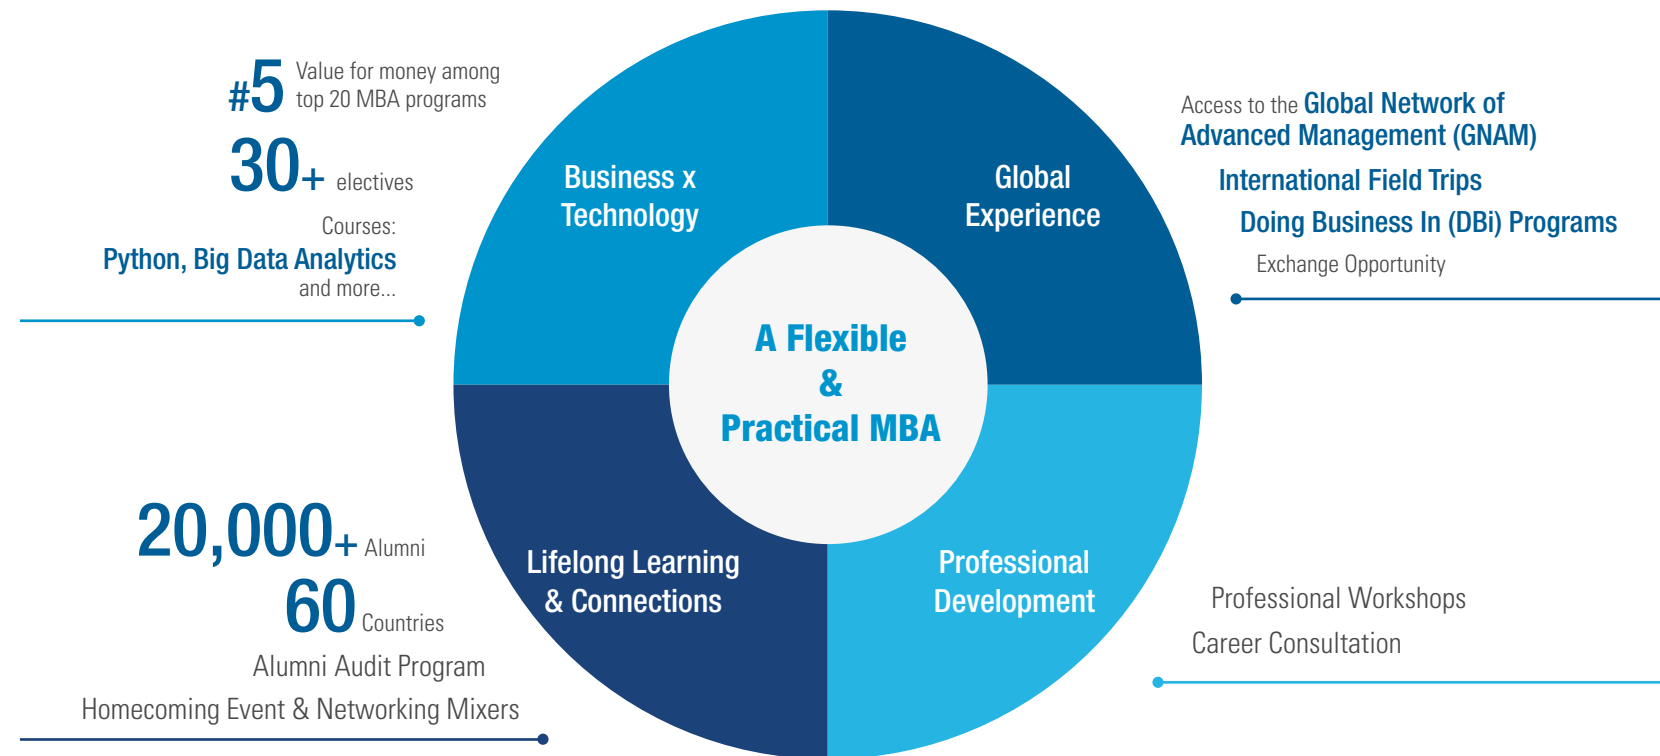

MBA Program in Asia listed in all four major global MBA rankings: Financial Times, Bloomberg Businessweek, The Economist, and Forbes

No. 1

EMBA Program in the World (in partnership with Kellogg) 9 times according to The Financial Times

Leading in Asia for the World

HKUST offers one of the most flexible and practical MBA curriculums in the region. You will gain a well-rounded business foundation through our business essentials core courses, and can further specialize in your areas of interest with 30+ electives. You will learn from our leading research faculty members and industry faculty members from Fortune 500 companies and MNCs. Together with our new Business Technology & Analytics courses, international field trips, and professional development support, the HKUST MBA experience will gear you up and ensure your success as a global business leader in today's increasingly competitive landscape.

*Financial Times Global MBA Ranking 2020

Business x Technology

Technological breakthroughs in AI, Big Data, Blockchain, IoT, and Fintech are reshaping the way we do business. Many business operations are becoming automated, and business decisions are now made based on massive data. As one of our six career tracks, the Business Technology & Analytics track will provide you with digital competencies that distinguish great managers from the rest, including both soft skills and extensive management techniques, and a broad knowledge of new technologies.

Learn from the experts in their fields

Based on HKUST's renowned science and engineering faculties, we are proud to offer a wide range of pioneering business technology courses in the HKUST MBA program. This provides our students with a forward-thinking vision and cutting-edge skillsets. Some courses within the Business Technology & Analytics track are taught by faculty members from the Department of Computer Science & Engineering, who are at the forefront of knowledge development, and experienced practitioners who are leaders in their field.

Gradual Upskilling

Our courses cater to students from diverse backgrounds, who are at different levels and have different study needs. To ensure that our MBA students have an adequate understanding of business technology, an Introduction to Python Programming accelerator course is offered during orientation. Python programming is a highly marketable skill increasingly sought after by companies in making data-driven business decisions.

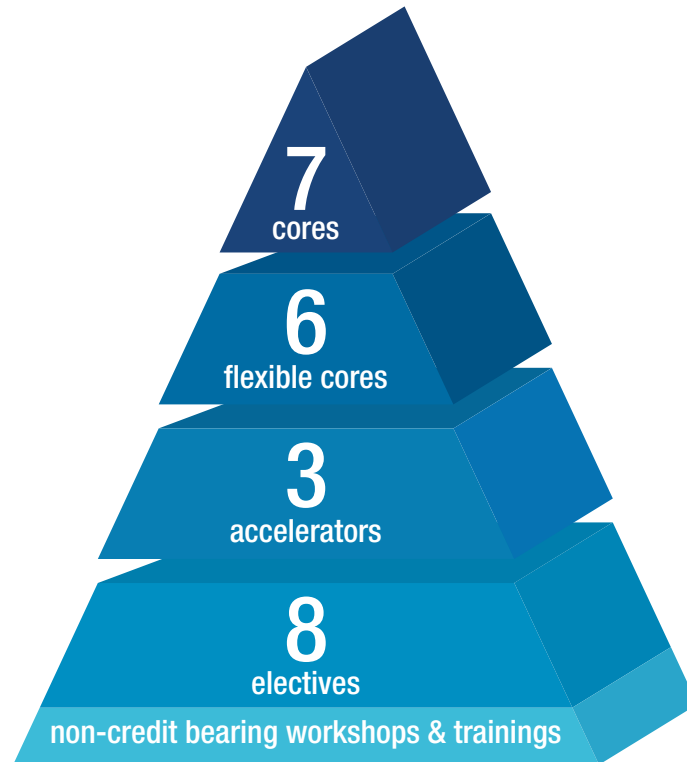

By establishing a fundamental understanding of this programming language, you can improve your understanding of how it can be applied to diverse business functionalities. This acts as an introductory course for students without any programming knowledge, and prepares them for more advanced elective courses such as Deep Learning Business Applications with Python or Business Analytics in R.

Examples of courses:

- Data Analysis
- Big Data Analytics
- Information and Technology Management
- Cryptocurrency Blockchain and Their Business Applications
- Programming in Python or R
- Integrated Business Simulation & Strategy
- Deep Learning Business Applications with Python
- Technology Entrepreneurship
- Technology and Innovation Management
- Digital and Social Media Strategy
- Electronic Commerce and Web Analytics

Flexible Curriculum

We offer one of the most flexible MBA curriculums in Asia based on six career tracks. The curriculum is made up of 45 credits. Your academic knowledge will be complemented by professional development workshops that will give you an unparalleled edge. You will gain about your credits from studying the required core courses, and the remaining credits through flexible core courses, electives and accelerators.

Build your business foundation

Our core courses are carefully designed to cover various aspects of general management and to build your professional knowledge base. You will be introduced to the foundation techniques required to become a future business leader.

Flexible Cores

- Managerial Accounting
- Global Macroeconomics
- Responsible Leadership & Ethics
- Data Analysis
- Managerial Communication
- Management of Organizations
- and more...

Pave your path to a business tech-focused MBA

The three accelerators will equip you with the quantitative foundation for business analytics, which is essential for your further study in a Business Tech-focused MBA in HKUST as well as your future development in an increasingly data-driven business world.

Six Career Tracks

- Consulting and Strategic Management
- Finance
- Marketing
- Business Technology and Analytics
- General Management
- Entrepreneurship

Develop all-round leadership competencies

As one of the most practical MBA curriculums in the region, we are proud to organize non-credit bearing industry-focused workshops and trainings. You will interact with industry experts in these workshops and trainings and develop all-round leadership competencies.

Core Courses

- Financial Accounting
- Marketing Strategy & Policy
- IT Management
- Strategic Management
- Corporate Finance
- Operations Management
- Managerial Microeconomics

Strengthen your specialization

You can customize your MBA curriculum based on your background and interests through flexible core courses oriented toward your envisaged career.

MBA Accelerators

- Accounting
- Data Analysis
- Python

Personalize your study plan based on your career goal

The broad selection of 30+ electives aligned with 6 career tracks enables you to sharpen your skillsets. The career-driven electives cover various aspects of business, enabling you to develop your expertise.

Integrating Professional Skills

- Career consultation
- Professional workshops and trainings

Chris Pereira

Intake 2018
Director of Public Affairs
Huawei Technologies Canada

The program at HKUST is second to none. Most memorable for me was the Managerial Communications course. You can expect to be challenged, and to improve your skill set exponentially. In the second year, the options available (events, short-term trips, electives...) are bewildering in their number. The sky is the limit, so don't let anything hold you back. Without any hesitation and in every respect, I can say that choosing HKUST was one of the best decisions of my life. If you're looking to take your career to the next level, this is the place for you. Do it. Jump!

How You Will Learn

Various modes of teaching are used across different courses with the aim of helping you maximize your learning through our interactive exercises and interactions with your fellow students, faculty members and external guest speakers. Lectures comprise only 30% of the course content; the remainder is dedicated to discussions, simulations, case analysis, seminars, individual and group projects, and class presentations. Be prepared for innovative and experiential modes of learning founded on real-life business cases set in both Asian and global business contexts. For all courses, the language of instruction is English.

Orientation Program

Your MBA journey begins with a thoughtfully designed orientation program comprising accelerator courses, personal assessment workshops, leadership training and experiential learning. This self-discovery and transformational step represents HKUST's unique culture. Within just a short time, you will acquire sound business knowledge and become well acquainted with your fellow classmates to ease your transition into the full program.

The four pillars of our Immersion Experience are as follows:

- ▣ Academic Tone Setting and Leveling
- ▣ Professional Development Preparation
- ▣ Camaraderie and Culture Building
- ▣ Program Administration and Policy Orientation

Experiential Learning

At HKUST, we ensure that you learn by doing and then apply what you learn in the workplace. A number of our courses are based on experiential learning, which requires you to work with actual companies in real-world situations. Here are some examples:

Enhancing Professional Skills (EPS)

To nurture our students as future business leaders, our professors with expertise in consulting, marketing, finance and management will deliver the winning secrets they have gained from writing effective executive summaries, making persuasive elevator pitches, presenting financial data logically and marketing business proposals. These are essential skill sets needed to excel in the MBA program.

Management Consulting

This course is taught by a former consultant from McKinsey & Co with over 20 years of professional experience, and will provide you with the key skills that management consultants require to solve business problems. You will learn how to frame and structure problems, brainstorm solutions, decide on recommendations, and create a powerful story to communicate them.

Adrian Sze

Intake 2019
Assistant General Manager
Chow Tai Fook

My HKUST MBA learning experience was like plugging into a massive database of elite professors and passionate classmates, from all backgrounds, allowing the exchange of knowledge and experience to flow naturally. We achieved challenging objectives by co-creating learning tools, blending wisdom to tackling academic and professional matters. In an era of constant change and fast-forwarding of society, one of most important skills I gained from the program is the ability to make wiser choices and go forward through the sharing among fellow students.

Our Class

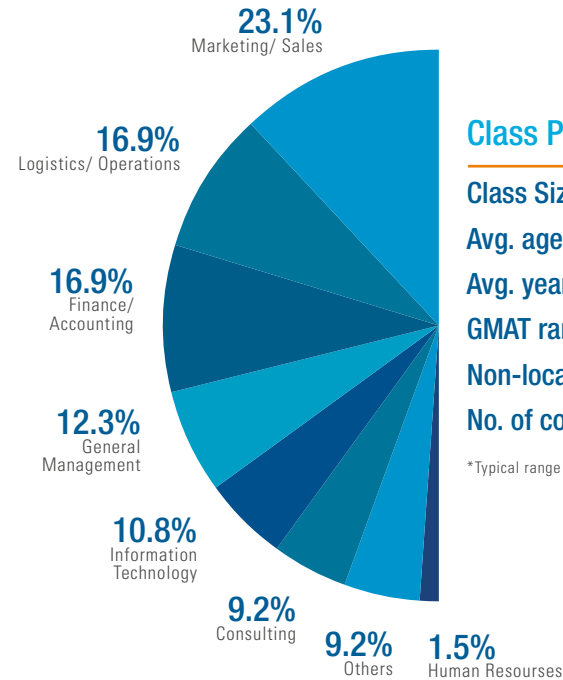

We create a stimulating learning environment by recruiting talent from richly diverse cultural and professional backgrounds. Get ready for thought-stimulating discussions in which learning crystalizes into practical knowledge and skills through interactions with your classmates.

Meet with Global Talent

One notable characteristic of our world-acclaimed MBA program is that it attracts the brightest minds from a wide range of industries and functions. Furthermore, our students are representing over 50 companies from different industries and companies, such as Amazon, Huawei, Tencent, Midea, Walmart and others. You won't find another Asian MBA program offering you such extensive professional exposure and connections.

Compact Equals Impact

Our MBA is a selective program, with a typical annual intake of around 60 students. This means that you get to enjoy optimum class sizes that foster effective learning and build closer connections with your classmates. The maximum class size is about 60 students per cohort, giving each student more opportunities to interact meaningfully with our faculty members.

Former President & Chief Executive, Sa Sa International Holdings
PhD, HKUST
Course: Family Business

*Teaching faculty may vary each year due to market trends and professional expertise that the school engages with

Global Experience

The HKUST MBA Program delivers much more than just classroom knowledge. We offer an exciting range of enrichment programs to help our part-time students broaden their horizons in the global context while continuing with their jobs.

Global Network for Advanced Management (GNAM)

HKUST is proud to be the only member school in Hong Kong to participate in the Global Network for Advanced Management (GNAM), which includes other world-renowned universities such as Yale, Oxford, Berkeley, HEC, IMD, and IE across 28 countries.

GNAM aims to drive innovation and create value by connecting leading global business schools. Global Network Week is one of the programs that provides students the opportunity to pursue intensive studies at another network school, in a focused course that leverages the perspectives, programs, and faculty expertise of that school. Below are some examples of recent modules:

- Behavioral Science of Management at Yale School of Management
- Sustainable Development Goals, Cities, and Inclusive Prosperity at UBC Sauder School of Business
- From Made in China to Invented in China at Business School, Renmin University of China
- Sustainable and Inclusive Development from Tokyo at Hitotsubashi University Business School
- Managing Across Cultures: Cultural Competence for Global Business Managers at Indian Institute of Management Bangalore

Our GNAM membership also gives our MBA students the opportunity to pursue credit-bearing Small Network Online Courses (SNOC), which are virtual networked education programs offered by the member schools. These courses connect students from the member schools via online lectures, discussions, and collaborative team projects. You can also attend online seminars and participate in alumni events that introduce you to an extensive network of connections across the globe. Here are some examples of the course offerings:

- International Entrepreneurship by Yale School of Management
- Power and Politics by Haas School of Business, University of California Berkeley
- A Primer on Social and Financial Innovation by IMD Switzerland

International Field Trips

First-hand experience is invaluable when learning about different markets and cultures. Our study tours will enable you to learn from experienced faculty members as they accompany you to different parts of the world. Local company visits, management talks, networking events, and cultural experience sessions with local executives will be arranged. These will enable you to gauge the market situation up close and gain experience-based market insights. Here are a few examples of our recent field trips:

United States – Silicon Valley and the San Francisco Bay Area

Topic: Innovation and Entrepreneurship

Company visits: Google, LinkedIn, Stanford University, Founders Space, Bloom Energy, Nordic Innovation House

Russia

Topic: Doing Business in Russia

Company visits: MTS Mobile TeleSystems, Novatek, Gazprom Neft, VEB.RF, Mail.Ru, Skolkovo

Doing Business In (DBi)

The Doing Business In (DBi) is a well-structured program for you as a part-time student to expand your MBA learnings in an international capacity. You will explore the unique business models in a specific region at the host school through lectures and a variety of activities such as company visits, day trips, and excursions that are linked thematically to topics covered during the program. Here are our two recent DBis:

- Doing Business in Israel by Collier School of Management, Tel Aviv University
- Doing Business in Australia by Melbourne Business School, University of Melbourne
- Doing Business in Germany by Otto Beisheim School of Management, WHU

Exchange Program

Our exchange program offers you an opportunity to maximize your international exposure through immersion by studying at an overseas partner school. Even as a part-time student, you can get a chance to study for a full semester at one of our 60 partner schools around the globe.

Professional Development

Our dedicated Career and Professional Development team is here to work with you for your professional acceleration. Trainings and workshops are offered to help you master various professional skills that increase your competitiveness – from understanding your personal strengths to personal branding and business networking.

Career Consultation

We appreciate that each student has different needs and goals, and we want to support you in the best way we can to make your aspirations fly. Our career advisors are all seasoned executives from different industries. They can evaluate your strengths, suggest areas for improvement, and work closely with you in formulating a customized strategy to help you succeed.

Enrichment Events and Executive Series

We offer a wide range of enrichment and networking activities, through which you can benefit from lifelong learning opportunities and learn directly from seasoned business leaders. The Alumni Speaker Series, where senior alumni are invited to share at lunch colloquiums, is offered to encourage knowledge sharing and exchange within the MBA community and to strengthen your connections with alumni. Recent industry speakers include:

■ **Alice Wong**
CFO, Hong Kong Television Network Limited

■ **Frederick Mutto**
Vice President, Global Customer Satisfaction and Quality, Schneider Electric

and more...

Professional Workshop

We design and organize a series of career and professional development workshops to help our students master all aspects of their professional skills, from business networking to personal branding and stakeholder management. Here are some examples of topics covered:

- ▣ Achieving Your Career Goals with an Authentic Personal Brand
- ▣ Job Searching Strategies for Working Professionals

MBA Career Fair

Our annual career fair allows some of the world's largest organizations to showcase their MBA job opportunities. Over the past 3 years, nearly 100 corporate partners have participated in our career fair. This flagship event offers students the opportunity to learn more about business roles and build relationships with prospective managers, colleagues, and HR teams.

Entrepreneurship

In 2018, the Financial Times ranked us third in Asia among “Top MBA Programs for Entrepreneurship.” The combined strength of our Business and Engineering Schools, diversified student body, and open and dynamic culture, plus the booming economy in Asia — these all position HKUST as an ideal hub for nourishing startups.

Entrepreneurship Center

The HKUST Entrepreneurship Center (EC) was established in 1999 to support innovation and entrepreneurship across the campus. The center organizes a wide range of activities designed to foster entrepreneurial spirit at the university level and cultivate a risk-taking value-creation mindset.

HKUST One Million Dollar Entrepreneurship Competition

Entrepreneurship is not just about ideas, but about putting them into practice to realize your dreams. Each year, our MBA students participate in this annual competition to test their startup ideas. The competition judges are investors and industry experts, who provide valuable advice and feedback throughout the competition. The cash prize can be used as seed money to further commercialize your inventions, and the winning teams from HKUST get the chance to compete with other teams across Greater China for a more comprehensive learning experience.

Owen He

Intake 2018
Pre-MBA: General Manager of Wiko MEA, Tinno Mobile
Current: CEO, TOM Planet

I decided to pursue the HKUST MBA as a journey of personal transformation. It has upgraded my perception of what it means to be professional, my understanding of business, and expanded my social network exponentially. Moreover, it inspired my classmates and I to run a startup company in STEM education. I have long harbored a desire to make a difference and change the world in my own way. The program equipped me with strategic thinking and leadership skills which helps me to set new career goal to pursue in the business world.

Lifelong Learning & Connections

It is often not what you know but who you know that matters. You will acquire a lifelong pass into our elite community of more than 20,000 alumni in over 60 countries, which forms an international network of support, experience sharing, and business opportunities. We pride ourselves on developing an active, culturally diverse, and close-knit community.

Alumni Audit Program

The rewarding experience of an HKUST MBA spans not only two years, but your entire life. Even after graduation, you will be able to join our selective elective courses and refresh your knowledge at a reasonable course fee.

An elective class taking place at our downtown campus.

MBA Homecoming

This flagship event enables our alumni to return to their alma mater over the years so they can reconnect and rediscover. Hundreds of alumni, students, faculty members, friends, and families enjoy a welcoming and memorable afternoon of workshops, networking, and family-friendly activities on the campus. Alumni can attend faculty lectures on cutting-edge topics for business professionals such as Artificial Intelligence and Big Data, which showcase the revamped MBA curriculum, capture the latest trends in emerging technology, and explain how they are integrated into the business world.

A Homecoming Day starting with a full-house welcoming group photo.

Enrichment and Networking Events

Enrichment events of various scales and formats connect diverse individuals from our MBA community, while smaller scale events cater to interest groups and allow attendees to share their passion in similar areas. These events offer a platform for students and graduates from different classes and study modes to actively engage in the HKUST MBA community.

Company visit to Hong Kong Television Network Limited in August 2019.

Alumni Panels

From time to time, experienced executives and alumni leaders from a wide range of industries are invited to share their perspectives and insights on various topics and to exchange ideas with the MBA community.

Alumni leaders from various sectors giving expert advice on hiring trends and tips for career success.

Our Alumni Network

Sometimes it is not what you know but who you know that matters. Earn a lifelong pass into our elite community of more than 20,000 alumni in over 60 countries, forming an international network of support, experience sharing and business opportunities. We pride ourselves in developing an active, culturally diverse and close-knit community. There is simply no easier way to gain access to the talents and perspectives of so many different experts and industries.

The Campus

Just think what a world of difference an HKUST MBA degree will make to your career outlook, prospects and business network. Now imagine earning your MBA in a welcoming, scenic environment surrounded by green hilltops and sparkling waters. Like many of our students and professors, you will soon come to love our beautiful campus by the sea.

Your Weekend Retreat

You can attend the bi-weekly courses on our campus. Leave the hustle of your day-to-day job behind and focus on your studies. It's the perfect time and place to learn, and to develop close bonds with fellow classmates.

The HKUST Business Building is a new, self-contained structure equipped with state-of-the-art facilities and learning technologies that overlooks a stunning view. MBA students can freely use our student lounge, spacious classrooms and breakout rooms.

Downtown Campus

In addition to our main campus at Clear Water Bay, we also have an easily accessible location in the Hong Kong Club Building in Central, right at the heart of Hong Kong's business district. You can arrive at the center without hassle straight from work for our weekday evening classes, career events and networking activities. The center has a lounge and coffee bar where you can relax and bond with your classmates while enjoying the spectacular view of the city's skyline and harbor.

Admissions

Admissions Requirements

We are looking for highly dynamic and talented individuals who can go beyond their limits in the pursuit of success. To apply to our program, you will need:

- Bachelor's degree;
- Minimum of 3 years' full-time work experience after graduating from your first degree;
- Satisfactory GMAT / GRE score*;

*Applicants with more than 7 years' full-time work experience are eligible to apply for a GMAT waiver, which is subject to approval.

**If English was not the language of instruction for your undergraduate or postgraduate degree, you will also need to provide a satisfactory TOEFL or IELTS result.

Financial Aid

Hong Kong residents may be eligible to apply for a study loan through the Government Student Financial Assistance Agency. Our program is also listed under the Continuing Education Fund (CEF) scheme, which provides a reimbursement of up to HK\$20,000 for those who fulfill the criteria starting from April, 2019. More details are available at www.wfsfaa.gov.hk

Local Student Allowance

If you work and live in Hong Kong and do not require us to provide accommodation while you take classes in Hong Kong, you can apply for an allowance of HKD 48,000 which will be deducted from the tuition fee. To apply for the Local Student Allowance, applicants must provide HKID information and an employment letter. Once the Local Student Allowance is granted, candidates should arrange their own accommodation and transportation for all courses conducted in Hong Kong.
